Modles

Allure

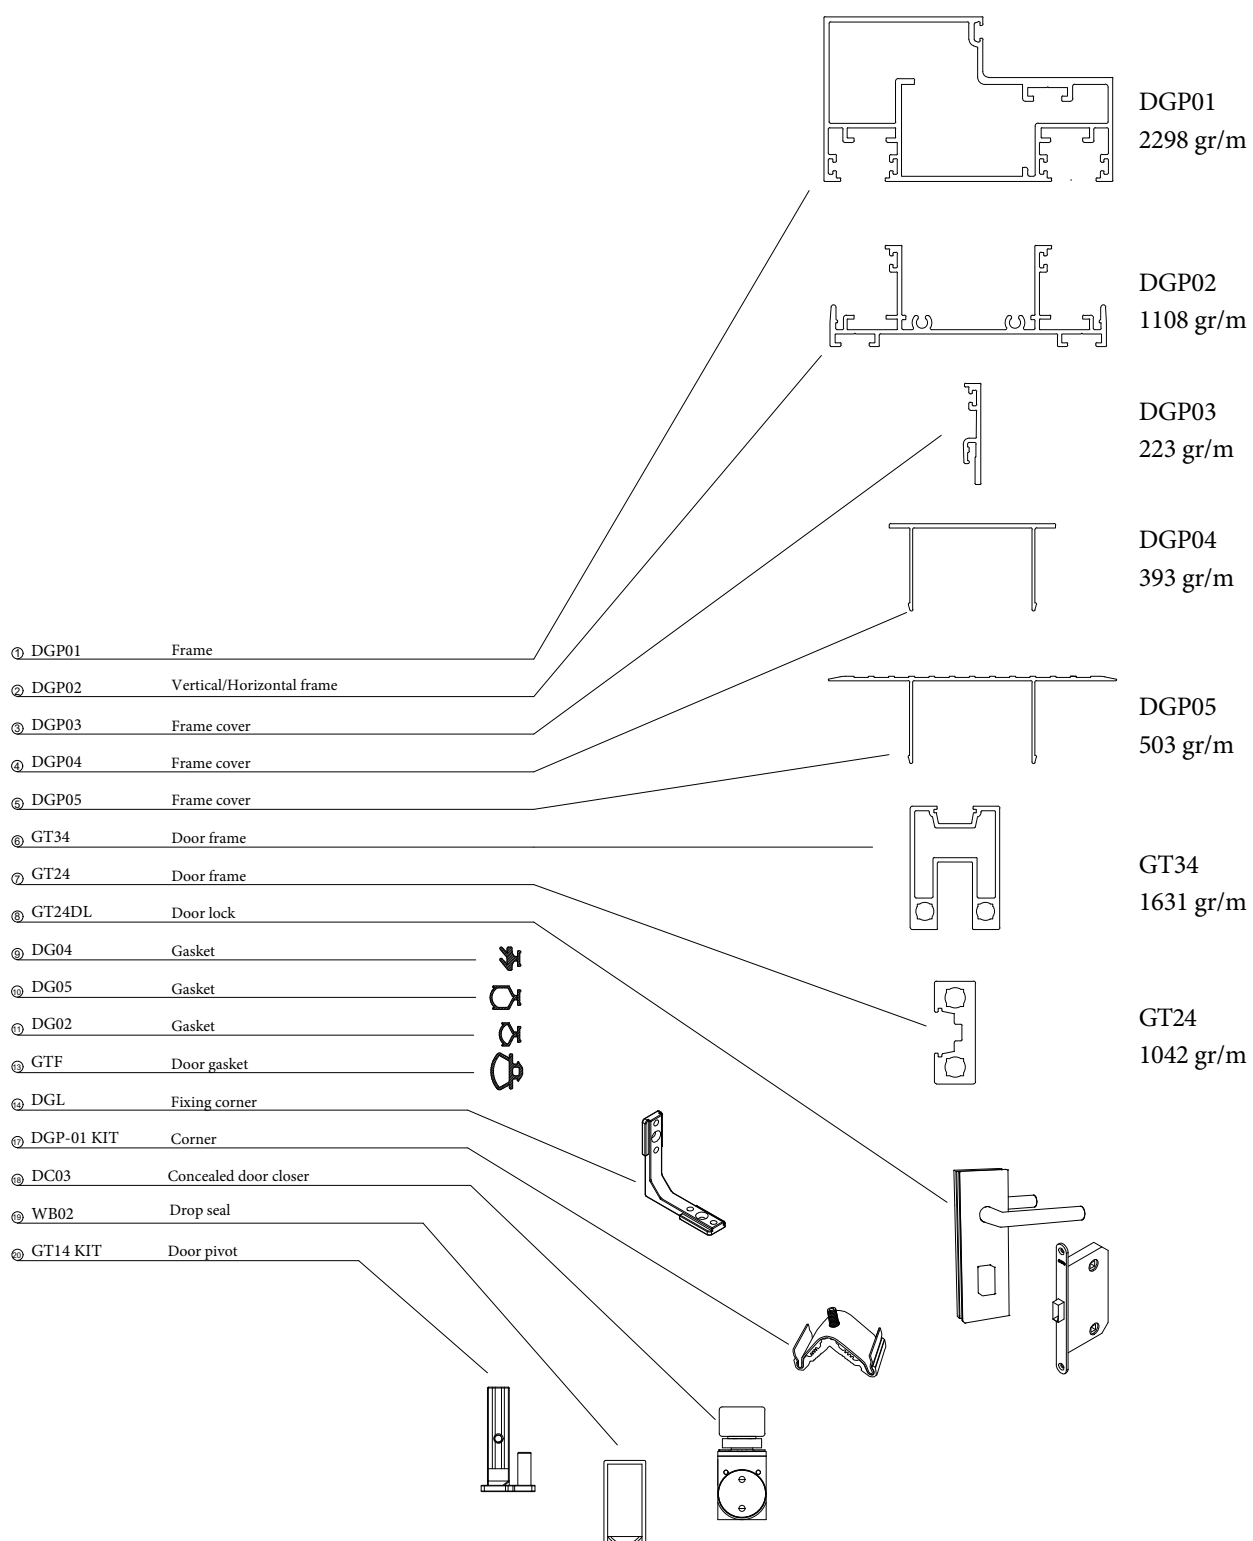

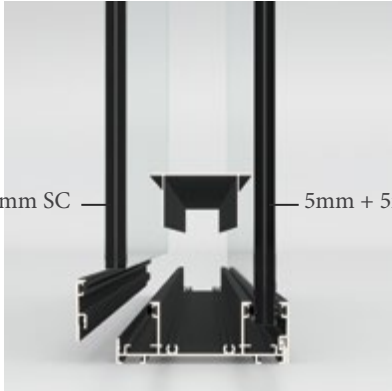

Allure

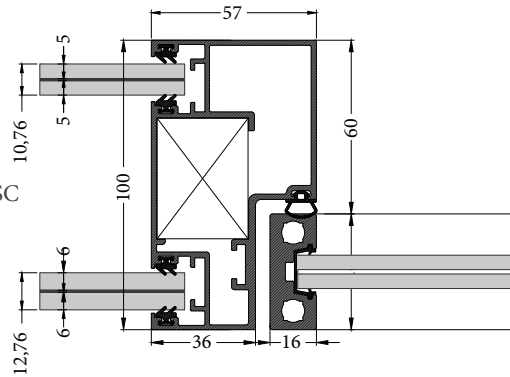

Allure

6mm + 6mm SC — 5mm + 5mm SC

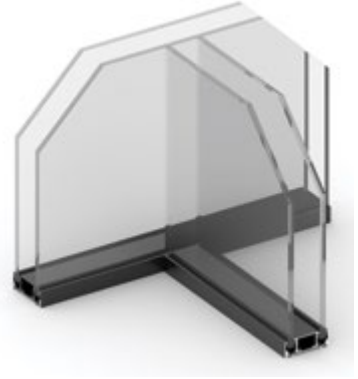

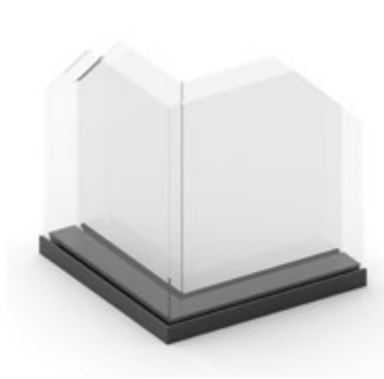

The Allure double-glazed office partition is designed for superior soundproofing, accommodating glass thicknesses up to 13, 52 mm. Its sleek, minimalistic design emphasizes transparency and elegance, with no visible vertical or horizontal profiles for a seamless look.

The partition also features a full-frame door with a hidden pivot function, allowing for the integration of door closers and drop seals. This ensures excellent sound insulation and prevents air leaks.

Soundproof up to 48 dB

Allure

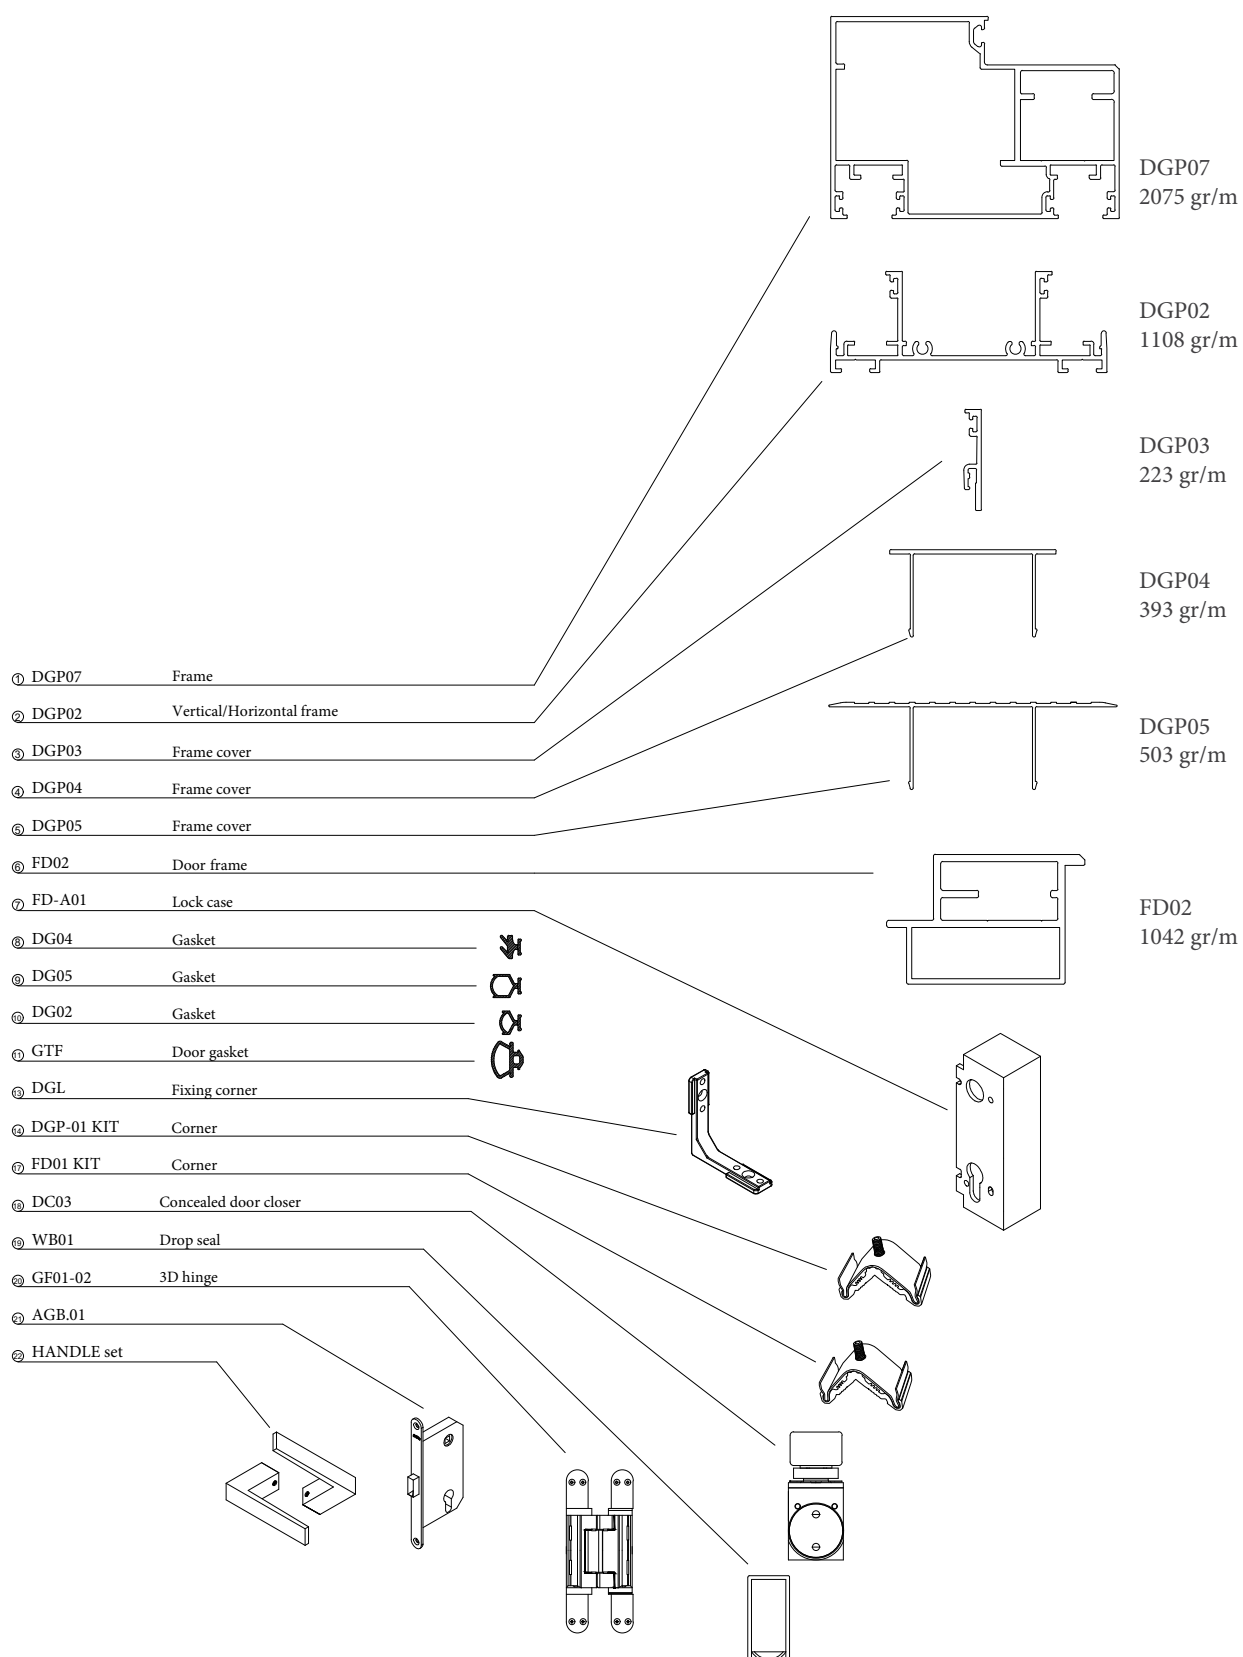

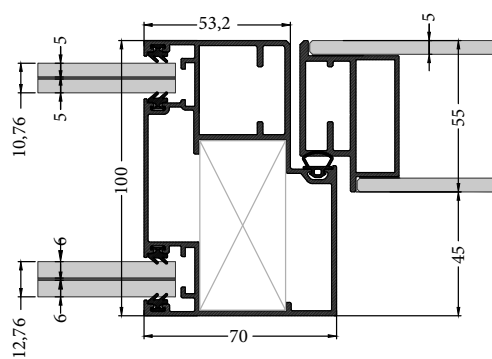

Cozy up your workplace by using wooden finishes.
Allure's 3D hinged doors and MDF faced panels allow for
enhanced privacy.

Allure

Allure

For greater sound insulation, opt for a double-glazed flush door. Our extensive range of aluminum finishes, along with options in glass, wood, and ceramic, allows you to elevate your space with a touch of luxury and unparalleled comfort. Transform your environment with our sophisticated designs and high-quality materials.

Allure features a flush door option with a discreet hidden hinge for a sleek, modern look. When combined with a door closer and drop seal, the double glazing ensures exceptional soundproofing. Choose from a wide range of RAL aluminum colors to perfectly match your aesthetic.

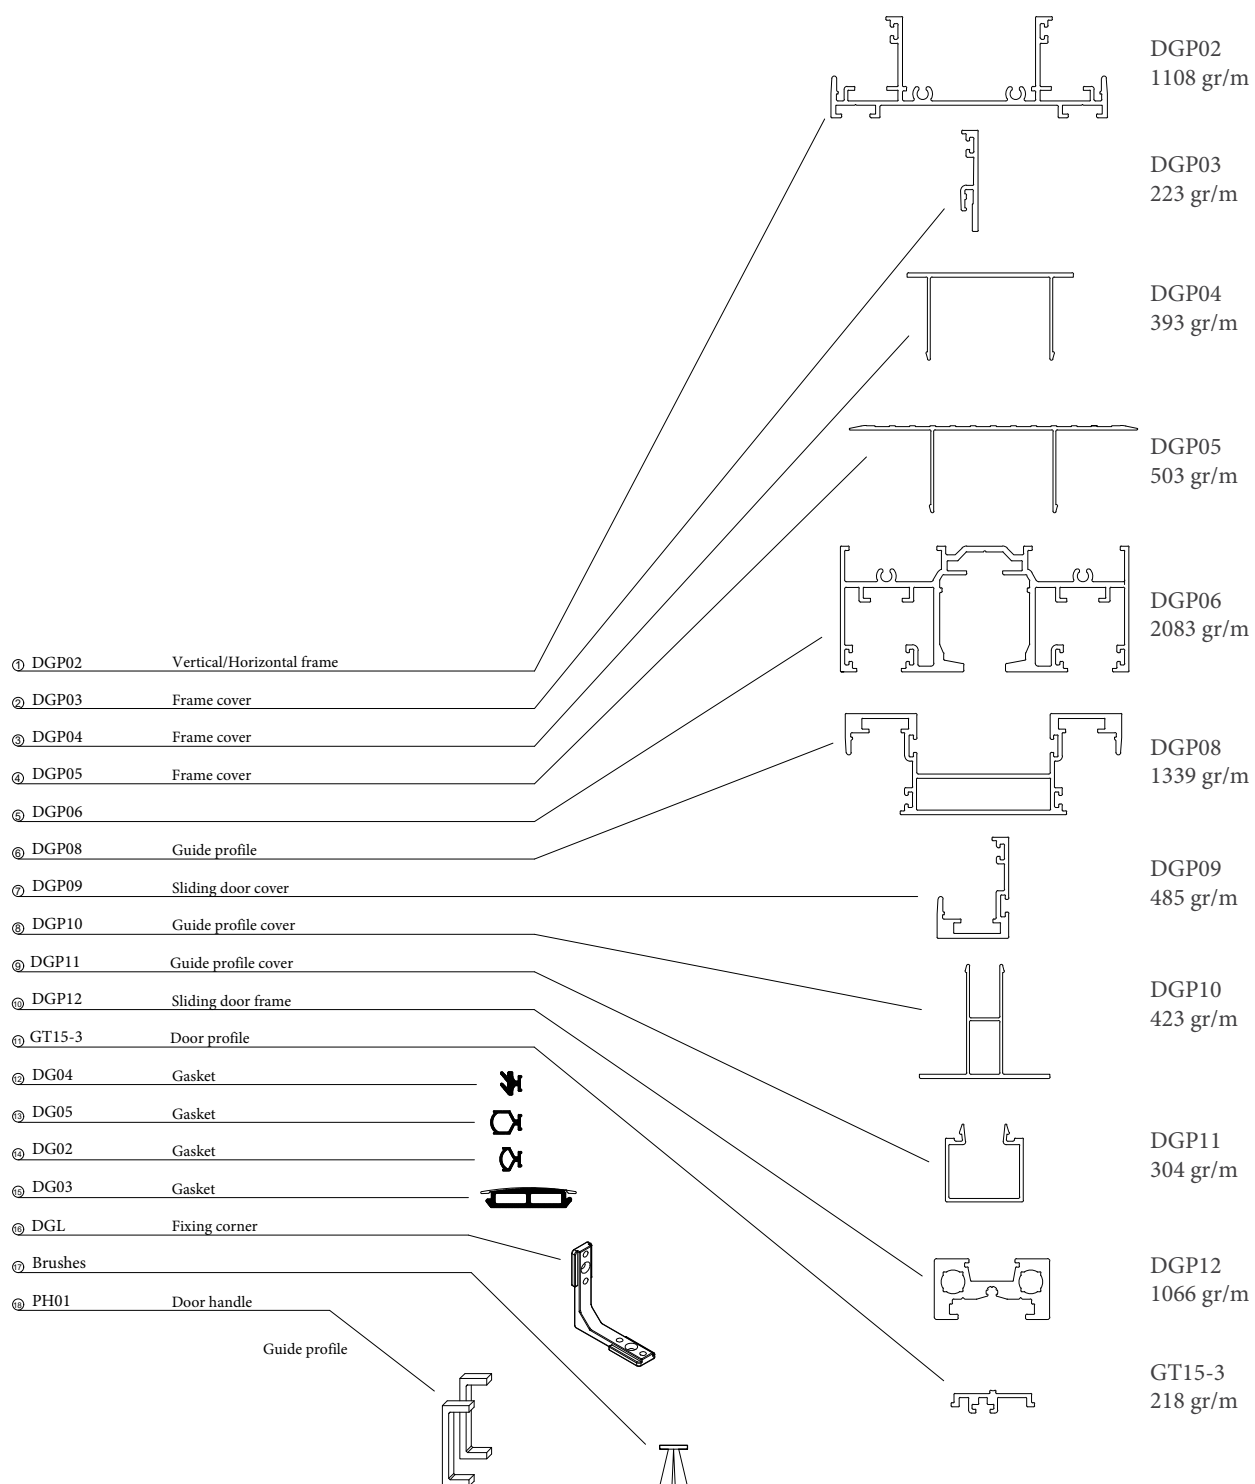

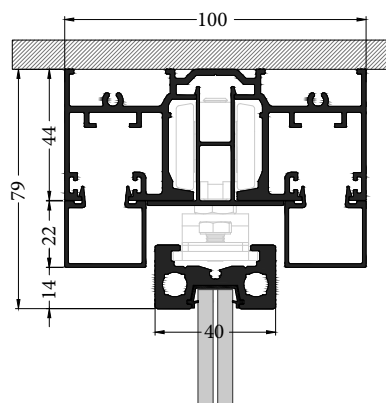

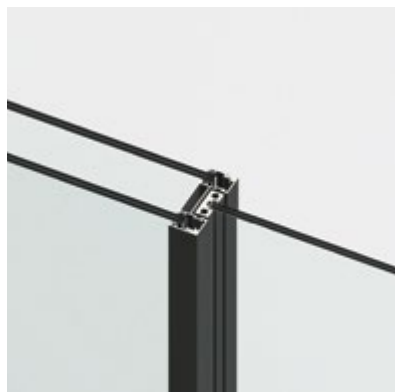

Allure

Allure

Choose elegance and optimize compact spaces with the Allure sliding partition. The sliding door parks inside of the gap of the glass partition, remaining hidden and preserving space in any room.

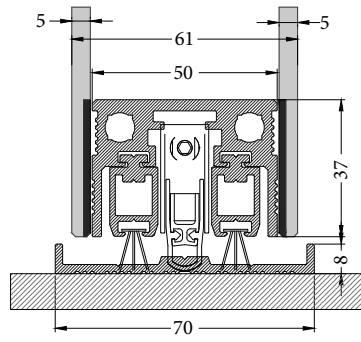

Allure

Allure superimposed soft-close sliding door is the ideal choice for large rooms, including conference rooms, hotels, and luxury homes.

Arcos

This frameless double-glazed glass door and partition system is renowned for its elegant and seamless design. Certified for sound insulation up to 37dB, it ensures superior noise reduction and enhanced privacy.

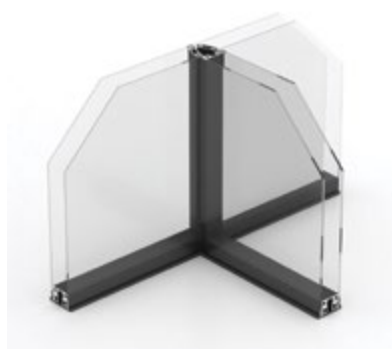

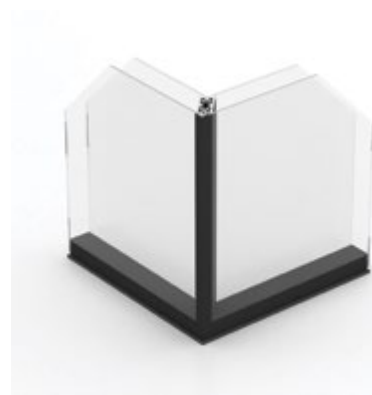

Arcos

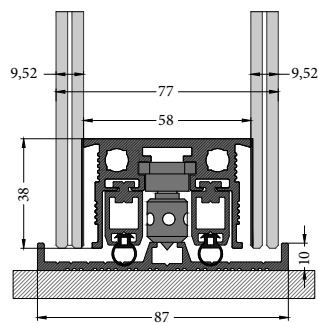

Featuring floor-to-ceiling walls framed in sleek metal, Arcos offers a sophisticated and practical solution for creating minimalistic workspaces within open office environments. The partition integrates seamlessly with various design elements, including ceramic-painted glass panels and wooden door leaves for added warmth.

Equipped with advanced features such as 3D hidden hinges, door closers, drop seals, sound isolation, and fingerprint access mechanisms, the Arcos system ensures both privacy and high-class elegance.

**Fixing
System**

Cassia

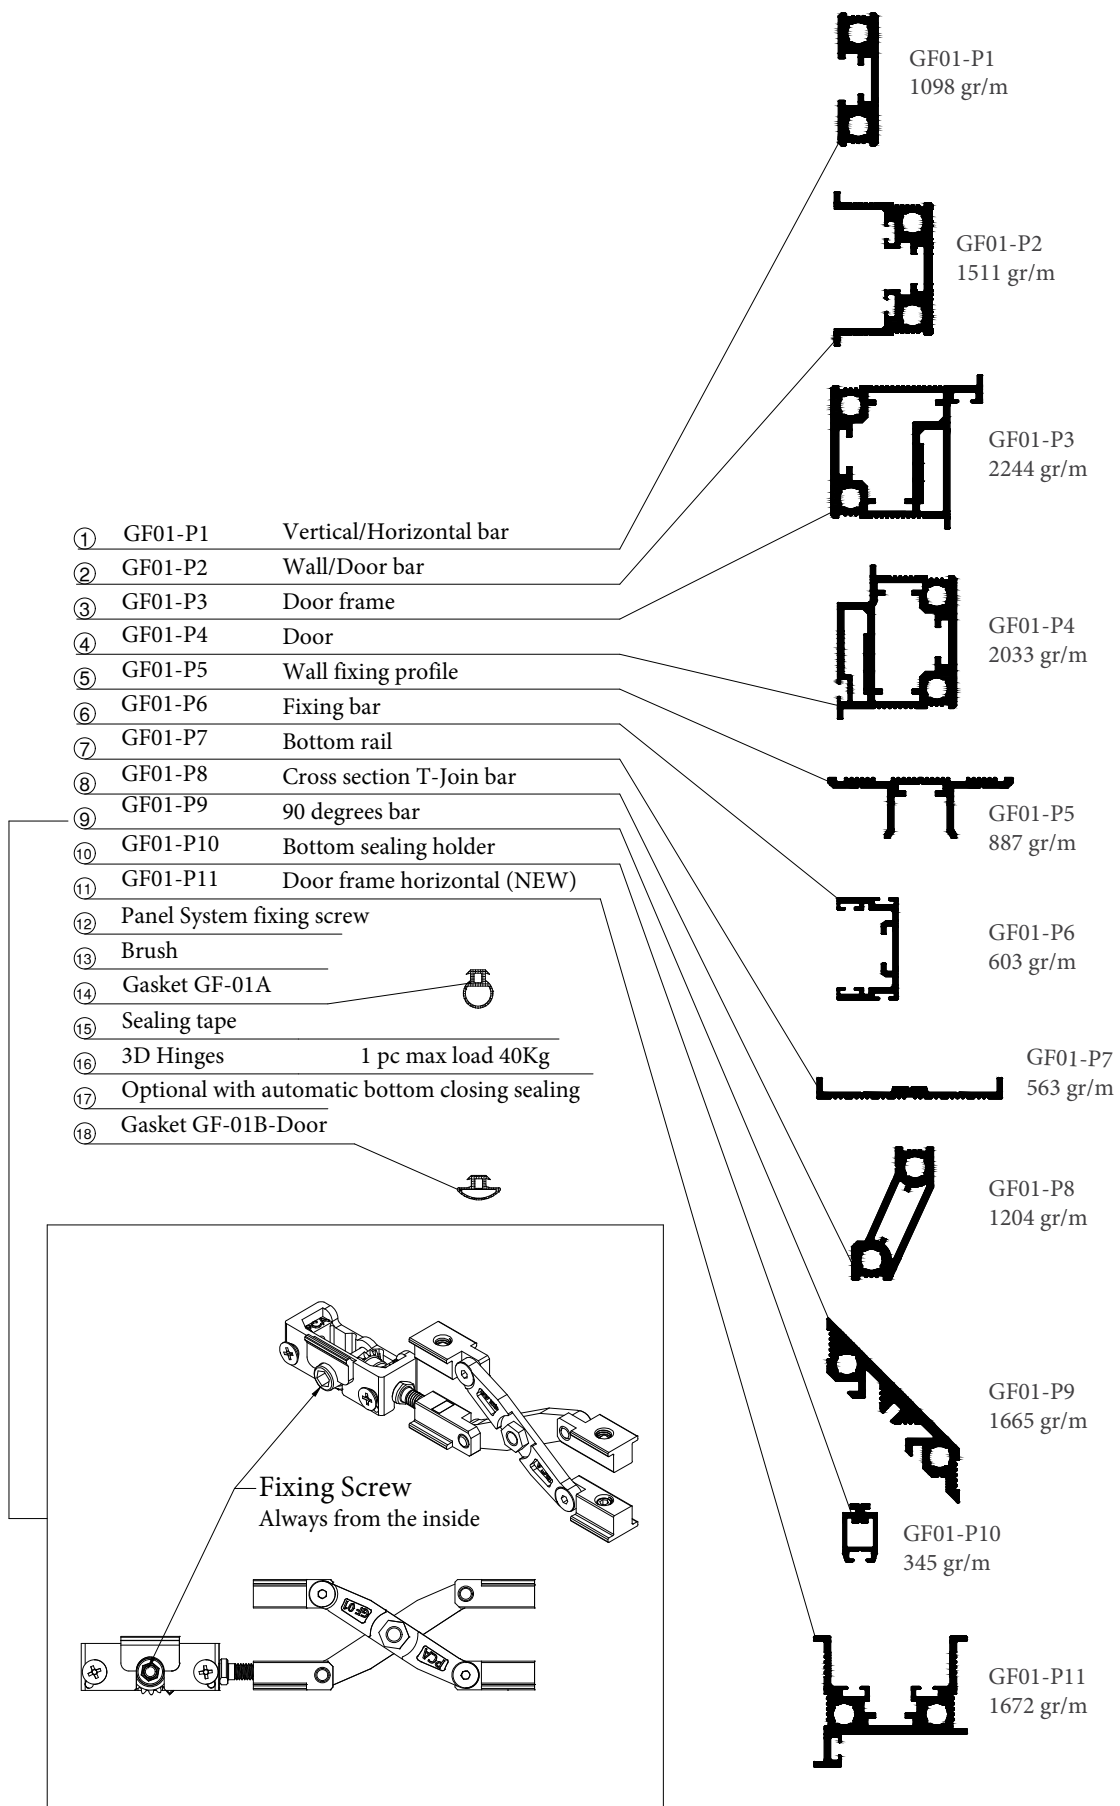

Designed for rooms with ceilings up to 3,5 m height, the Cassia system provides soundproofing with performance of up to 44dB, reducing noise distractions and ensuring privacy.

The system features floor-to-ceiling glass panels framed in metal, enhancing the space's sophistication while allowing natural light to illuminate the area.

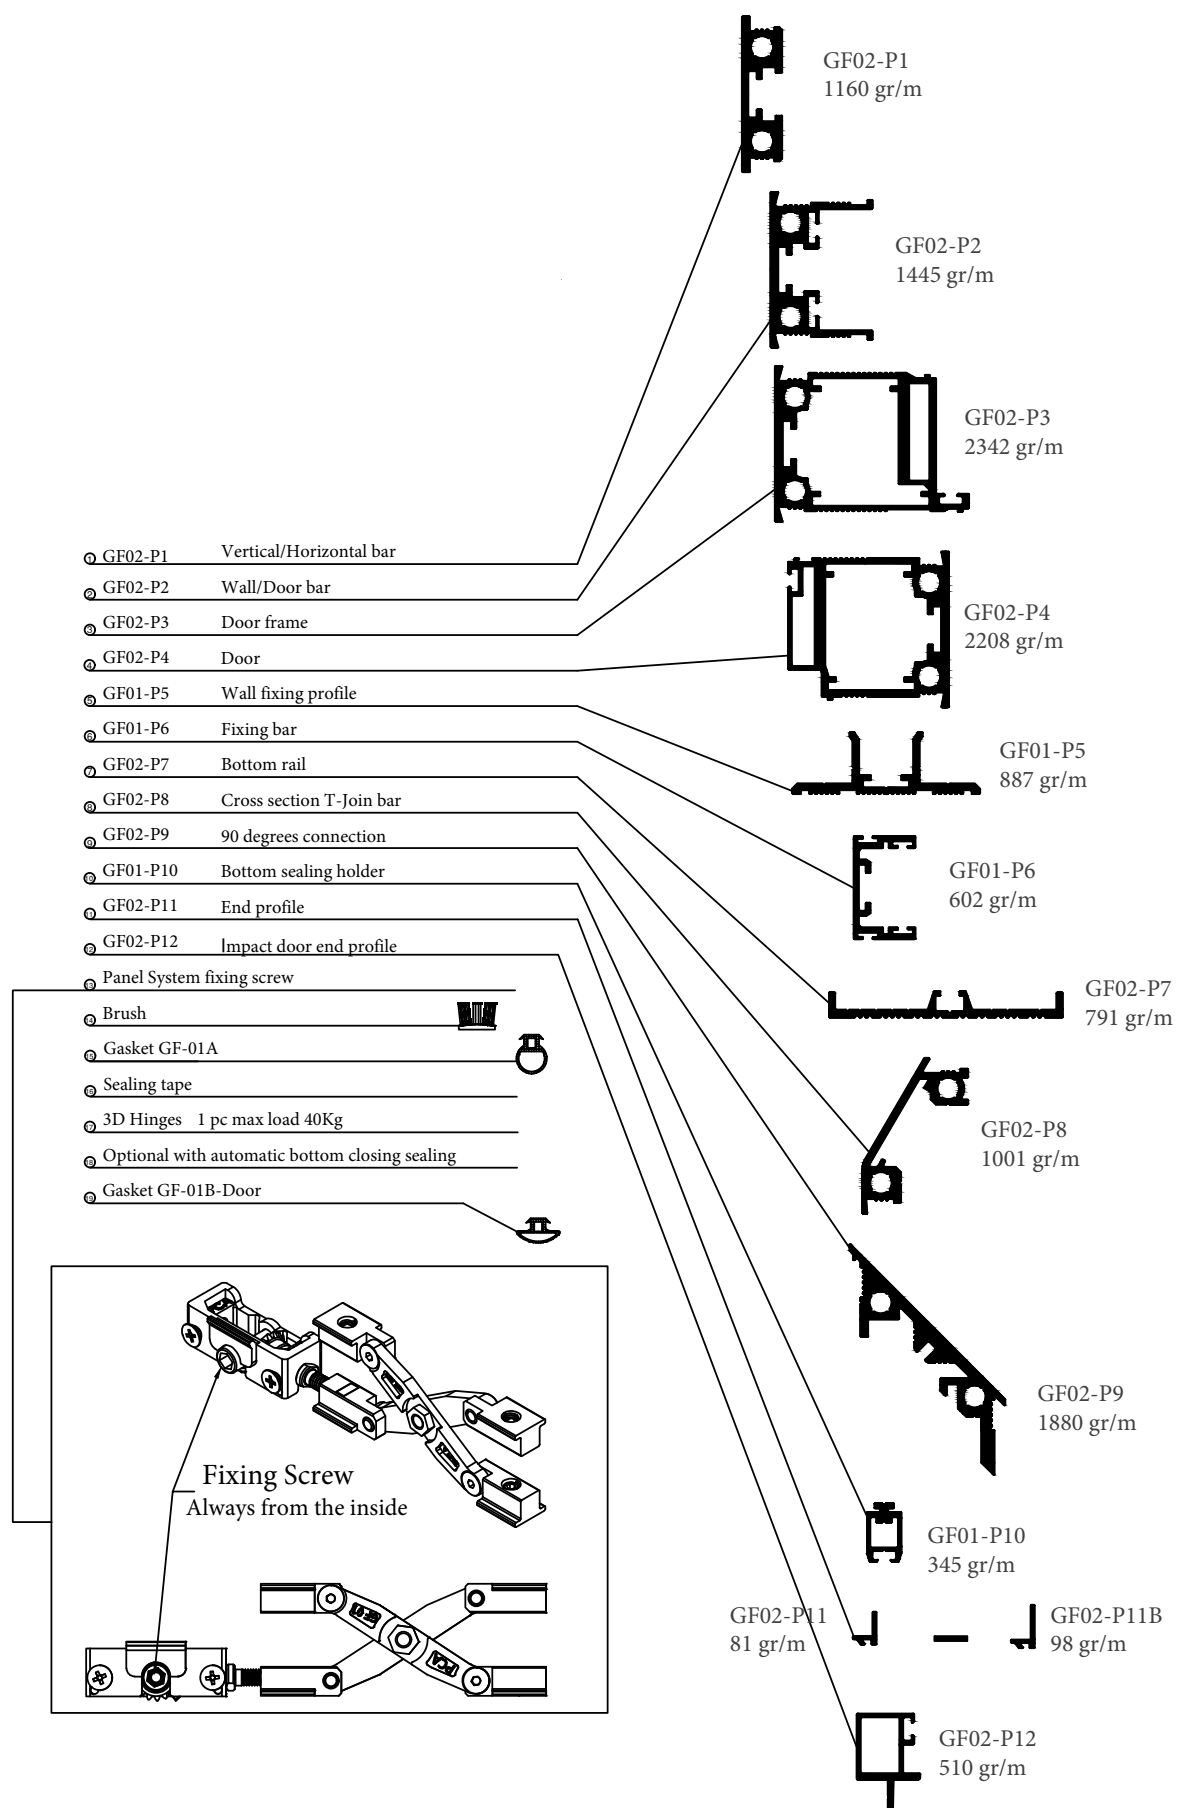

Cassia also offers the option for skylight installation and discreetly conceals electric supplies within its specially designed column profiles.

Arcos

Cassia

Clarity meets luxury: introducing elegance to contemporary spaces.

Sliding Doors

Estetico

Estetico doors are equipped with advanced soft-close technology, which ensures a smooth and silent closure.

This feature includes precision-engineered rollers, tracks, and guides that all facilitate a gentle glide.

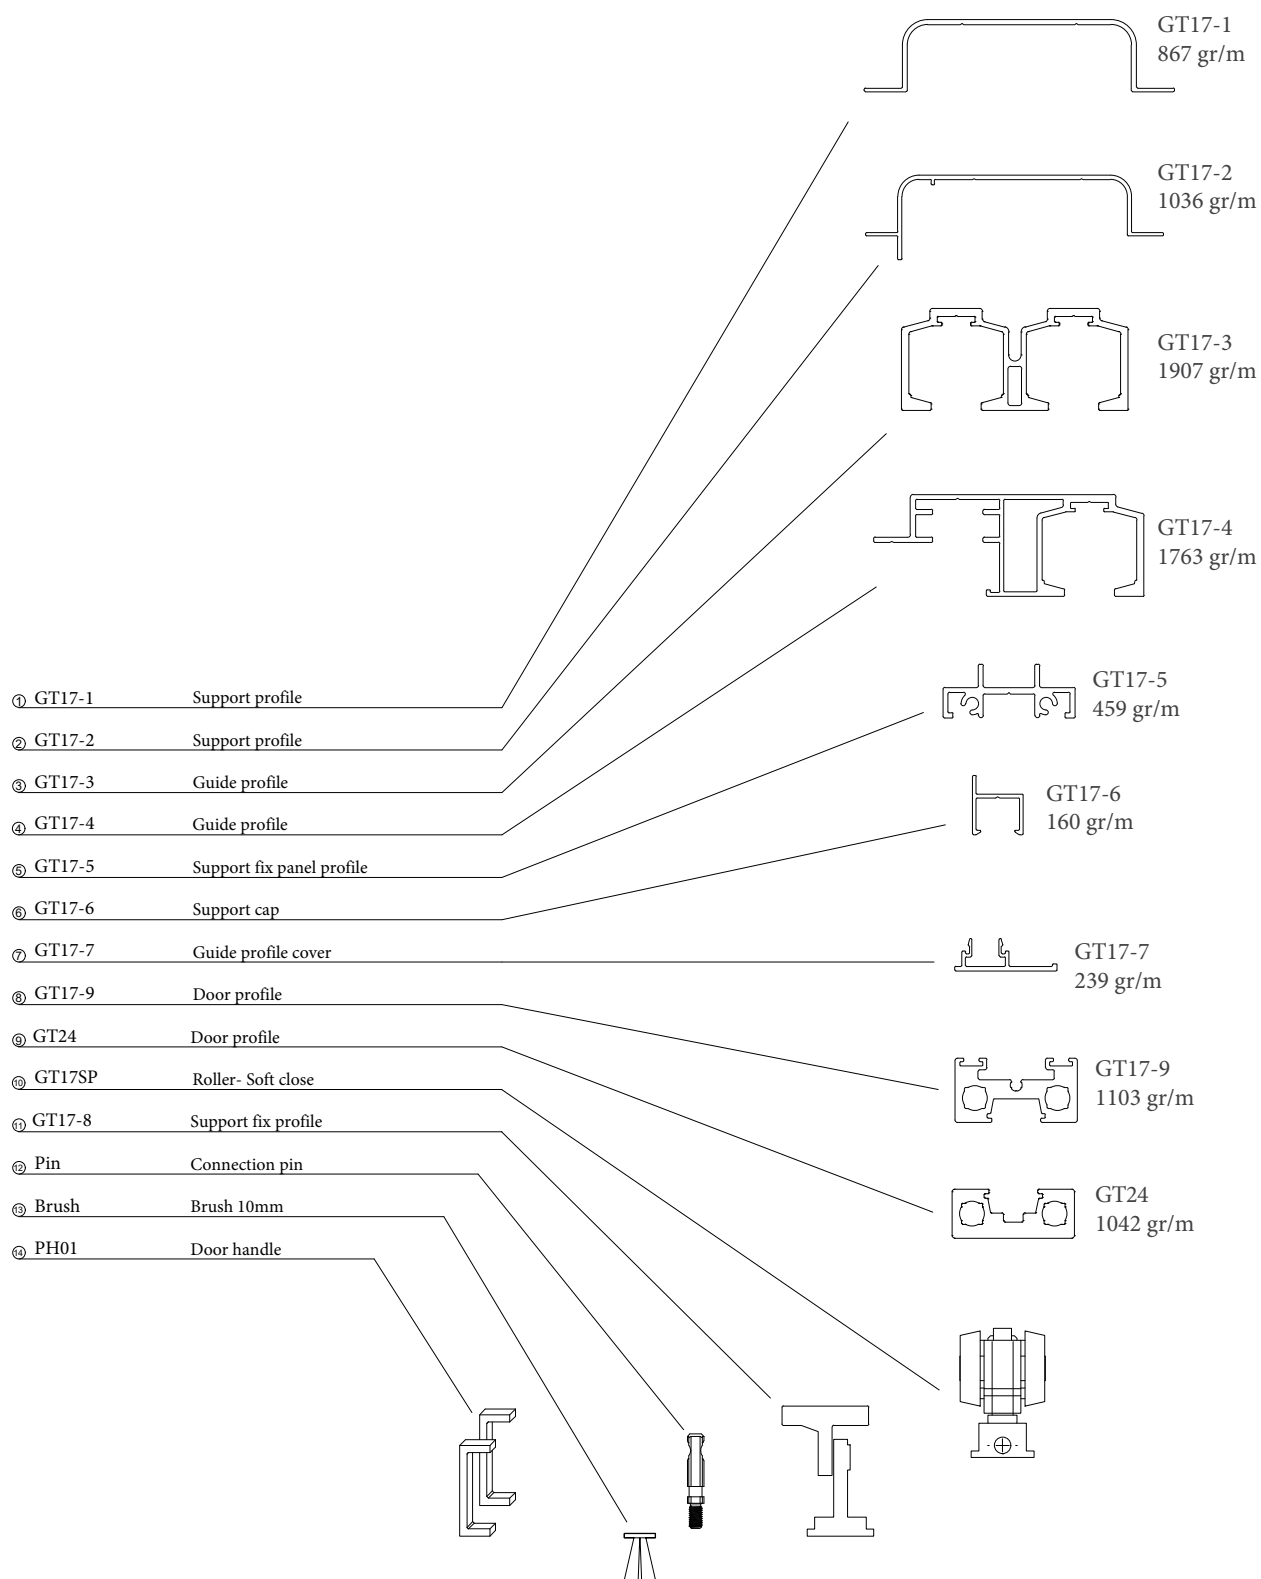

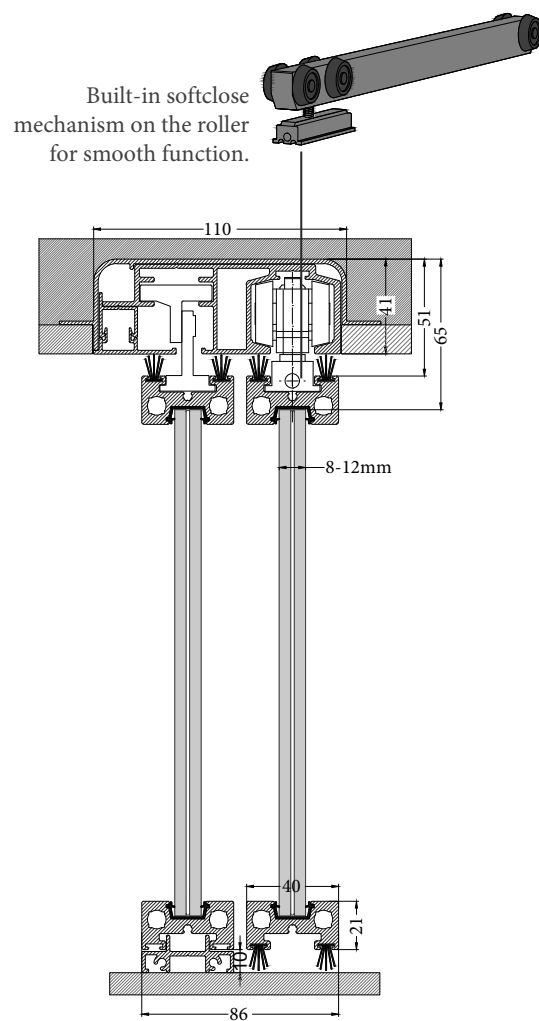

This door system achieves a high end, timeless appearance that enhances any space.

Estetico

Estetico

Estetico

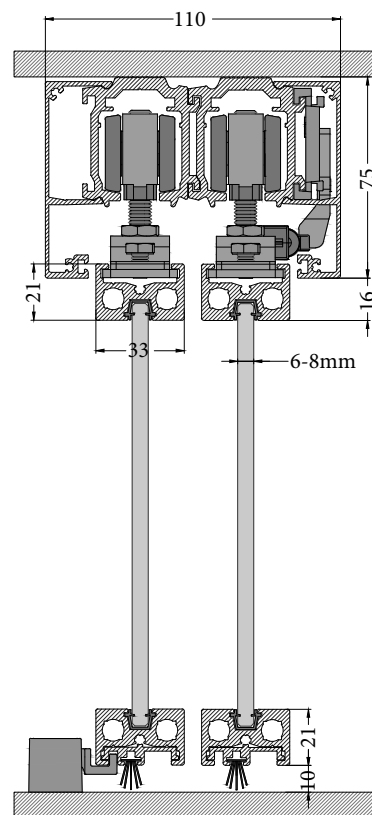

All hardware is discreetly concealed behind a customizable strip of material.

This design choice maintains a sleek, unobtrusive look, allowing the door to blend seamlessly with the surrounding decor.

Helvia

Great architecture cannot exist without great design.

The Helvia door utilizes a telescopic sliding mechanism that allows multiple glass panels to stack neatly, creating a wide opening without the need for extensive clearance.

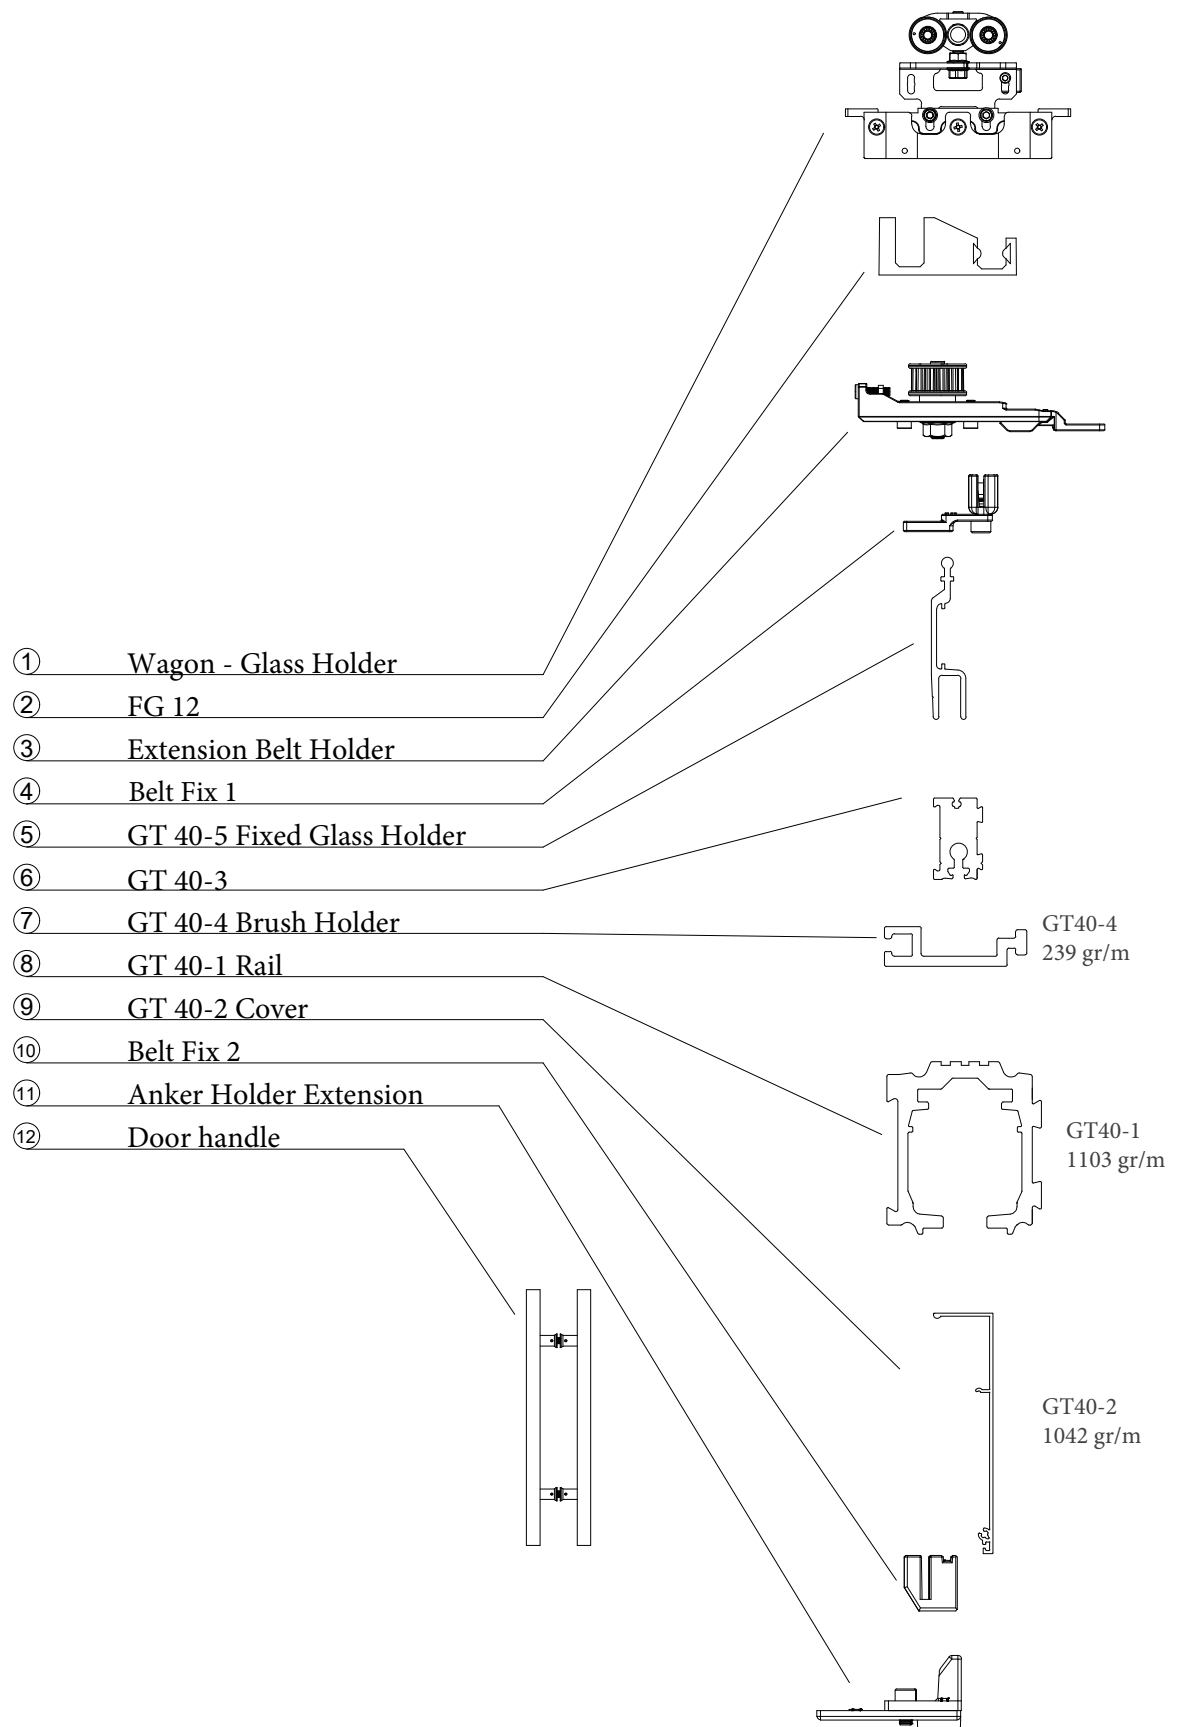

Linea

The Linea sliding system is characterized by its frameless design, which delivers a sophisticated and transparent look. This modern aesthetic integrates seamlessly into contemporary interiors, contributing to an open and airy atmosphere.

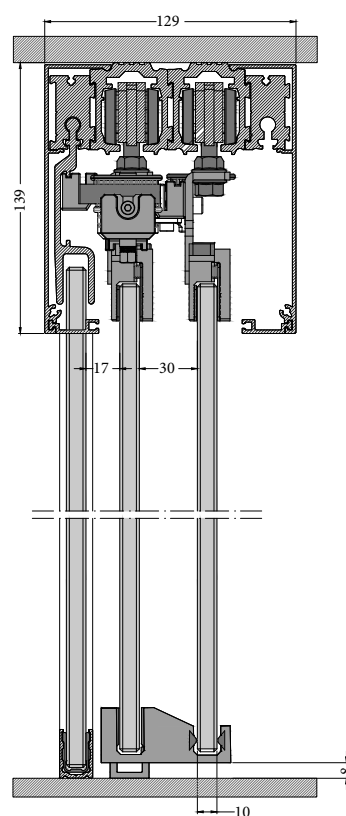

Linea

Synchro telescopic system with belt function

Aldo

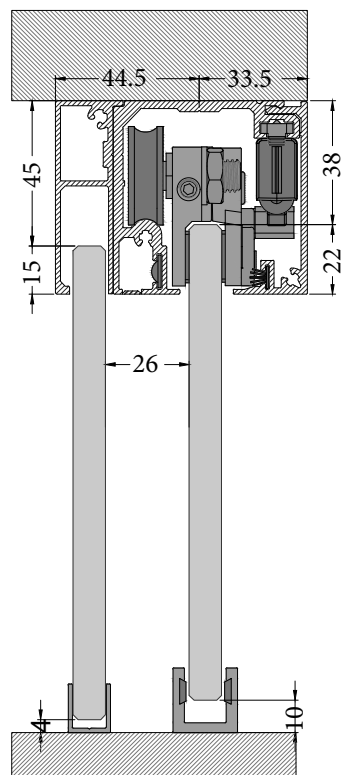

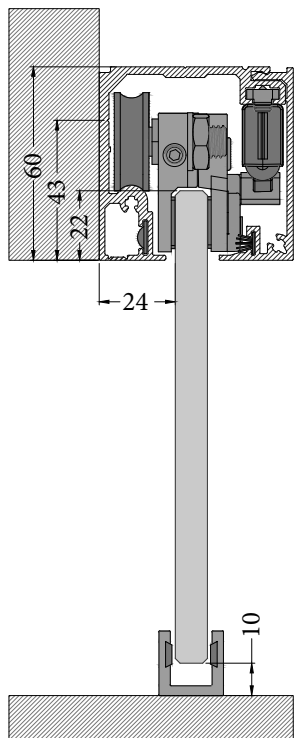

A key feature of the Aldo door is its soft-close functionality. This mechanism gently decelerates the door as it approaches the closed position, preventing sudden slamming and extending service life.

Aldo

Glass products are a worthwhile and brilliant investment. Not only are they elegant and luxurious, but they are also incredibly durable and safe. Choose Brisk's state-of-the-art line of glass products for your next project to enhance any space and transform it into something extraordinary.

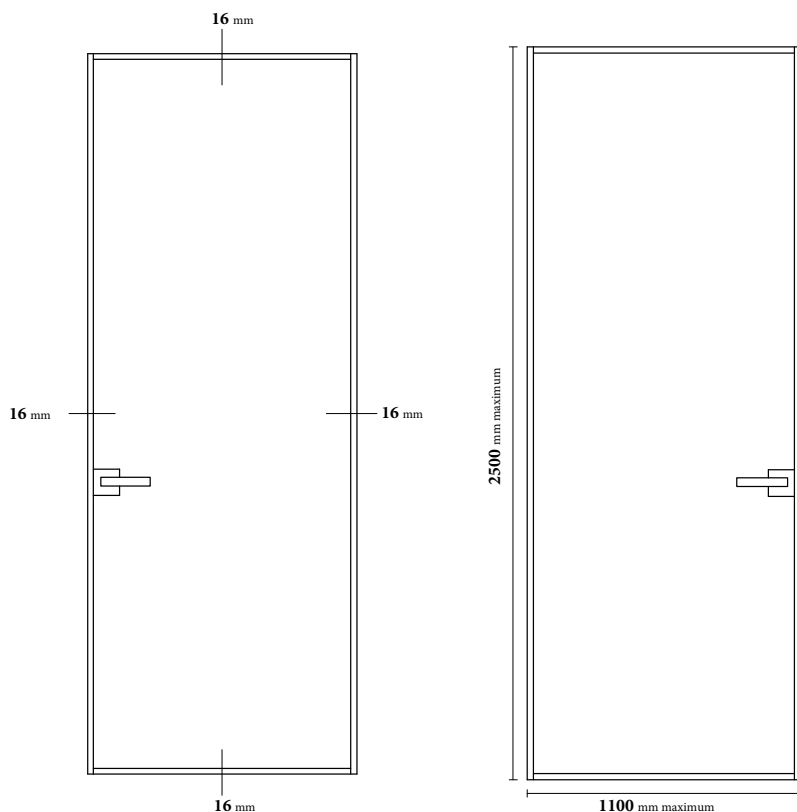

Full Frame Doors

Matic

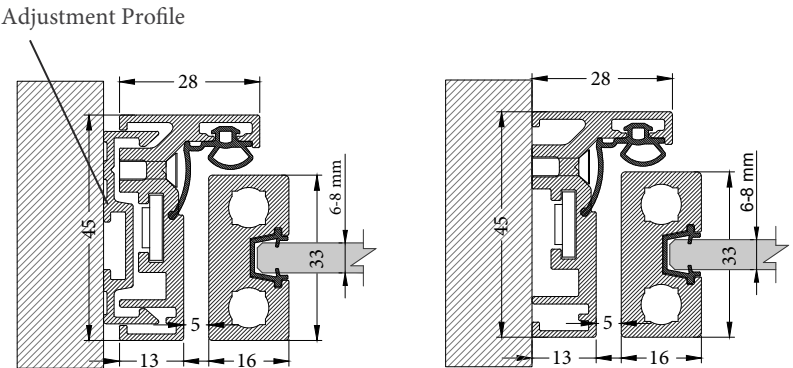

The concealed pivot function on the Matic door ensures smooth and silent operation, while the door's design accommodates glass thicknesses ranging from 6mm to 8mm, offering flexibility and ease of operation.

For added security and a touch of modern convenience, the Matic is also available with a magnetic lock option.

Matic

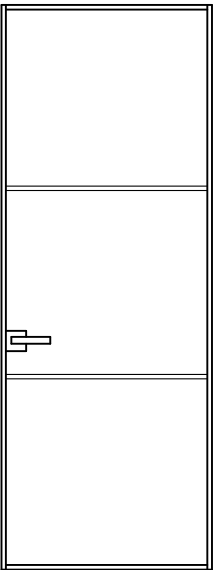

Elevate your interior by choosing from Matic's range of door designs.

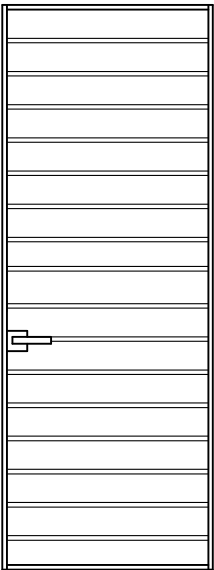

With a variety of aluminum finishes and glass types available, you can customize your space to perfection.
